SENIOR STAFF SCIENTIST IN OENOLOGY
COOL CLIMATE OENOLOGY AND VITICULTURE INSTITUTE

TERM FULL-TIME
(3-year contract with possible renewal)

(JOB GROUP O)

The Cool Climate Oenology and Viticulture Institute (CCOVI) at Brock University is seeking applications for a Senior Staff Scientist in Oenology, specializing in Wine Flavour Chemistry, to support research and outreach activities in CCOVI. Reporting to the Director of CCOVI, 50% of the time will be devoted to applied research in oenology on issues relevant to the Canadian grape and wine industry, and 50% on outreach activities to support the grape and wine industry in the Niagara Region of Ontario and across Canada. Responsibilities will include: developing a research program; liaising with industry winemakers; collaborating with CCOVI faculty researchers; drafting competitive, multidisciplinary grant proposals; recruiting students to assist in research; communicating research results through seminars, summary documents, peer-reviewed papers and individual consultation; developing workshops; responding to inquiries; problem-solving; assisting researchers with sample analysis; and providing training on advanced analytical techniques, such as GC/MS. The establishment of an externally funded research program with supervision of undergraduate and graduate students is expected.

The successful candidate will possess a PhD in a relevant discipline (Chemistry, Biochemistry, Food Science, Oenology and Viticulture), and be knowledgeable in advanced analytical techniques for grape and wine analysis using equipment such as GC/MS, GC/MS/Olfactometry, HPLC, and FOSS WineScan. In addition, you must be able to maintain or troubleshoot problems with advanced analytical equipment. Your effective communication skills are combined with excellent problem solving abilities and innovative solutions. The ideal candidate will have demonstrated success attaining grant money and solving wine production problems. Awareness of issues relevant to the local grape and wine industry is preferred, as is experience working with industry on wine production problems.

This position includes full comprehensive benefits coverage. The three-year position may be renewable pending budgetary approval. Further information about CCOVI can be found at www.brocku.ca/ccovi/. Review of applications will begin on **March 1, 2010** and will continue until suitable candidates have been identified. Applicants are invited to submit a résumé and cover letter, including a research plan, a statement of outreach activity plans, reprints of several recent publications, the names of three references, and salary expectations, **quoting Vacancy Number AP 05/2010** to jobs@brocku.ca or to **Human Resources & Environment, Health and Safety**, **BROCK UNIVERSITY**, St. Catharines ON L2S 3A1.
