

Department of Psychology Graduate Theses

NAME	AREA	YEAR	ADVISOR	THESIS TITLE
M.A. Students				
Alloway, Christie	BN	1995	Ogilvie	Electrophysiological quantification of sleepiness and the sleep onset period in normal sleepers and narcoleptics
Atkinson, Christina	SP	2000	Belicki	Interpretation of music videos: An interactive relationship between medium and viewer
Belbin, Wendy	LS	2001	Rose-Krasnor	Asymmetrical balance of power in preadolescents' mutual friendships
Bernstein, Danny	BN	1995	Belicki	Assessing the psychometric properties of dream content questionnaires
Campbell, Kelly	LS	2004	Rose-Krasnor	Moral identity, youth engagement, & discussions with parents & peers
Campbell, Sherry	LS	2003	Rose-Krasnor	Beliefs about social development in parents of aggressive and withdrawn children
Capuana, Lesley	BN	2008	Dywan	Cortical & autonomic modulation of attentional control
Carre, Justin	BN	2007	Muir	Salivary testosterone & cortisol: Role of athletic setting, game outcome & game location
Chevalier, Helene	BN	1997	Segalowitz	Gray's motivational systems, inhibitory control & attention allocation: behavioral and electrophysiological correlates of behavioral inhibition & activation
Correy, Brenda	SP	2001	Hafer	Perceived modifiability of self-blame attributions for negative life events: Implications for psychological & physical well-being
Cortese, Cathy	LS	1999	Rose-Krasnor	Parental goals among Italian-Canadian & Canadian families & their connection to socialization practices & the quality of parent-young adult relationships
Costain, Kelly	LS	2007	Rose-Krasnor	Exploring exploration: Career identity development & temperament
Costello, Kimberly	SP	2008	Hodson	"Re-humanization": The role of human-animal similarity in reducing prejudice towards immigrants and non-human animals
DeBono, Anthony	BN	2008	Good	The social consequences of mild head injury and executive dysfunction
Dempsey, Julie	SP	2006	Hafer	An investigation of the emotion assumptions of just-world theory
Desjarlais, Malinda	LS	2006	Willoughby	Can low domain knowledge be compensated for when using the Internet?
Dobson, Jennifer	SP	2008	Martini	Motives for suppressing positive & negative emotions

Department of Psychology Graduate Theses

NAME	AREA	YEAR	ADVISOR	THESIS TITLE
Drover, Hilary	SP	2005	Sadava	"Attitude is a little thing that makes a big difference": Further exploration of attitude alignment in the context of close relationship dyads.
Duff, Alison	LS	2002	Rose-Krasnor	Mother-child relationship quality and collaborative problem solving
Dyke, Danielle	BN/LS	2005	Segalowitz	Individual differences in risk-taking and associate characteristics: A test of specificity in executive functions
Elms, Natalie	LS	2007	Mondloch	An investigation of the mechanisms underlying the other-race effect
Fawcett, Catherine	SP	2006	Bogaert	Individual difference factors & men's attraction to female body features
Ferlisi, Mary-Claire	BN	1999	Segalowitz	Speed of perceptual processing, spatial ability & executive functions underlying fluid intelligence in childhood & adolescence
Fogel, Stuart	BN	2004	Cote	The effects of simple procedural, cognitive procedural, and declarative learning on sleep
Goertzen, Larissa	LS	1999	Rose-Krasnor	Young children's behavioral responses to the distress of others
Green, Michelle	SP	2005	DeCourville	Stress, social support, and health risk behaviours as mediators of the forgiveness-health relation
Hague, Leslie	BN	2002	DiBattista	Role of learning and growth hormone releasing factor in control of protein intake
Holmes, Elizabeth	LS	2001	Willoughby	A naturalistic observation of the play behaviour of children with autism spectrum disorders
Hopkins, Melonie	BN	1997	Dywan	Physiological reactivity & the perception of emotional stimuli as they relate to social adaptive functioning after traumatic brain injury
Ilios, Helen	LS	2004	Rose-Krasnor	Parenting children with communication delays
Kambouris, Irene	SP	2000	Sadava	Underemployment and depressive affect: The moderating influence of coping styles
Kennedy, Richard	LS	2005	Dane	Emergence of normative beliefs legitimizing antisocial behaviour in adolescents: The roles of monitoring, attachment, and temperament
Kertesz, Rona	BN	2008	Cote	Information processing in sleep-onset insomnia: A test of the neurocognitive model
Lamarche, Carole	BN	1995	Ogilvie	A comparison of electrophysiological changes during the sleep onset period of psychophysiological insomniacs, psychiatric insomniacs & normal sleepers

Department of Psychology Graduate Theses

NAME	AREA	YEAR	ADVISOR	THESIS TITLE
Marsman, Ian	BN	1995	Segalowitz	Negative & positive priming in poor and good readers: An ERP study
Martin, Cory	BN	2001	Ogilvie	EMG detection of sleep onset compared to standard EEG measures
Mathews, Iva	BN	2007	McCormick	Locomotor sensitization & conditioned place preference for amphetamine in late adolescent & adult male & female rats
Mathewson, Karen	BN	2002	Dywan	The influence of age on the relationship between attentional control and vagal tone
McKenzie, Tammy	BN	2001	DiBattista	CCK, dietary variety and food intake in rats
Michalica, Kerri	SP	2005	Belicki	The role of personality and situational factors in forgiveness
Miller, Fiona	LS	1995	Belicki	The relation of attentional, emotional, & social regulation to cognitive competence, from infancy to school entry
Milner, Catherine	BN	2004	Cote	The role of daytime napping on sleepiness and cognitive function in 24-70 year olds
Molnar, Danielle	SP	2004	Sadava	Attachment and alcohol: Testing a motivational model of problem drinking
Murphy, Tim	BN	1995	Ogilvie	An electrophysiological examination of intentional & inadvertent sleep onset: The effect of intention on the sleep onset process
Murphy, Wendy	LS	1995	Rose-Krasnor	A social-cognitive model of monitoring & its relationship to behaviour in a naturalistic observation: Developmental & individual differences
Newman, Kristin	SP	2000	Sadava	Motivational model of problem drinking for men and women
Oates-Johnson, Tina	SP	1996	DeCourville	Weight preoccupation, personality, & depression in university students: An interactionist perspective
Obertynski, Monika	SP	1996	Hafer	The effects of language complexity in a counter-attitudinal appeal to laypeople.
Pailing, Patricia	BN	1998	Segalowitz	Predictors of academic achievement & social competence in adolescence: Facilitation, inhibition & general cognitive processing
Pozzebon, Julie	SP	2006	Ashton	Personality traits & personal values: An investigation into the importance of each in the prediction of behaviour
Qian, Jian	SP	2000	Preston	Reality status evaluation in mediated experience
Ralph, Roslyn	LS	1999	Rose-Krasnor	Children's rights and parenting beliefs: A study of attitudes, beliefs and emotions

Department of Psychology Graduate Theses

NAME	AREA	YEAR	ADVISOR	THESIS TITLE
Rourke, Jessica	SP	2006	Belicki	Towards the development of a questionnaire of forgiveness-seeking motives & behaviours
San Cartier, Nancy	BN	2000	Brudzynski	The role of the GABAergic system in the production of ultrasonic vocalization in rats
Sangalang, Pierre	SP	2006	Hodson	I like my beer cold, my TV loud & my homosexuals flaming!: Preference for stereotype congruency as a function of a situation by person interaction
Sanichara, Sonia	BN	2005	Segalowitz	ERP evidence supporting a frontal hypothesis of ADHD
Santamaria, Belinda	BN	2003	Dywan	Psychophysiological measures of the perception of facial identity and emotion in individuals with a traumatic brain injury
Santesso, Diane	LS/BN	2003	Segalowitz	Electrophysiological correlates of temperamental approach and avoidance
Scott, Pam	SP	1998	DeCourville	Factors affecting a woman's decision to leave an abusive relationship: The theory of planned behavior
Smith, Brian	BN	2007	Cote	A dose-response investigation of the attentional blink during sleep restriction
Smith, Debra	LS	2001	DeCourville	A five-factor model of grief: A Q-methodological study
Snelgrove, Peter	SP	2005	Sadava	Vulnerability to adverse consequences of drinking & problem drinker status as predicted by risky drinking behaviours, drug use, sex differences, & affect: A test of multiple models
St. Pierre, Joel	BN	2007	Brudzynski	The effects of Quinpirole on eliciting 50 kHz calls from the fat nucleus accumbens
Stack, Holly	LS	2005	Rose-Krasnor	The role of motivational systems in community service involvement: Initiating & sustaining factors & quality of experience
Stewart, Craig	BN	2000	Ogilvie	Subjective, behavioural, and electrophysiological measurements of the time-course and intensity of sleep inertia after a full night of sleep
Stewart, Tammy	SP	2006	DeCourville	Explorations & comparisons of actual, ideal, & ought forgiveness definitions: A Q-methodological study
Stoliar Ben-David, Faina	SP	1997	Sadava	A model of personality & health: The perfectionism-health connection
Tan, Felicia	LS	2009	Rose-Krasnor	Living between two cultures: Personality and adaptation in Chinese immigrant youth
Tays, William	BN	2005	Dywan	Age-related changes in ERP's associated with context-based and response-based interference

Department of Psychology Graduate Theses

NAME	AREA	YEAR	ADVISOR	THESIS TITLE
Thomson, Kendra	LS	2007	Mondloch	Sensitivity to differences between posed & genuine facial expressions: Are children easily fooled?
Turner, Deborah	SP	1997	Nadon	Cognitive set, absorption & achievement as moderators of the perceptual closure effect in picture priming
Vaisanen, Esko	BN	2001	Good & Tyson	Non-invasive measurement of trigeminal nerve somatosensory evoked potentials
Veenhof, Wilma	BN	1997	Dywan	ERP & cardiovascular correlates of source memory discrimination in older & younger adults
Visser, Beth	SP	2005	Ashton	Beyond g: Putting multiple intelligences theory to the test
Williams, Ben	BN	1999	Ogilvie	Electrophysiological analysis of the sleep onset period: a comparison between subjects with long-term insomnia complaints associated with mild traumatic brain injury & matched controls
Wintink, Amanda	BN	2000	Brudzynski	The role of the dopaminergic system in the production of ultrasonic calls in adult rats
Worth, Narnia	SP	2007	Book	Psychopathy and self-monitoring: Additive & interactive effects on self-presentation tactics
Zhao, Junru	LS	2006	Rose-Krasnor	Implicit self-theories of shyness: Predictors & correlates in preadolescence
Zheng, Xin (Reno)	BN	2008	Segalowitz	What happens in the first 200 ms of word reading: ERP studies on visual word recognition with top-down and bottom-up approaches

Department of Psychology Graduate Theses

NAME	AREA	YEAR	ADVISOR	THESIS TITLE
PH.D. STUDENTS				
Anum, Adote	BN	2006	Segalowitz	Predicting performance on fluid intelligence from speed of processing, working memory, & controlled attention
Chalmers, Heather	LS	2004	Willoughby	A comprehensive examination of adolescent gambling
Choma, Becky	SP	2008	Hafer	Why are people liberal? A motivated social cognition perspective
Mathewson, Karen	BN	2008	Dywan	Autonomic and electrocortical indices of performance monitoring and source memory discrimination in older and younger adults
Santesso, Diane	BN	2005	Segalowitz	Electrophysiological correlates of performance monitoring in middle & late adolescence
